

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

BRAZIL.

*Sanitary report from Rio de Janeiro.*RIO DE JANEIRO, *October 27, 1896.*

SIR: I have the honor to herewith transmit report for week ended October 24, 1896.

There were 4 deaths from *accessio pernicioso*, a decrease of 1; 2 from yellow fever, the same as in the foregoing week; 1 from smallpox, a decrease of 6; 1 from beriberi, the same as in the foregoing week; none from enteric fever, 4 in the foregoing week; 1 from measles, none in the foregoing week, and 52 from tuberculosis, a decrease of 4. From all causes there were 242 deaths, a decrease of 19.

Yellow fever.—On account of the lower temperature caused by the heavy rains, this disease has not yet commenced to augment in cases or deaths.

Smallpox.—Whilst the showing here is more favorable, in Pernambuco there has been no change for the better, if not the contrary. It has appeared also more or less intense in Petropolis in the Federal district, and still continues without favorable change in the places already reported.

Since last report the following ships have been visited or received bills of health from this Office: October 20, ship *Falls of Clyde*, British, for New York, N. Y. October 21, steamship *Serona*, British, for New Orleans, La. October 24, steamship *Rosemorran*, British, for New Orleans, La.; steamship *Dalecarlia*, German, for New York, from Santos, and steamship *Maskelyne*, Belgian, for New York, from Buenos Ayres. October 26, steamship *Manitoba*, British, for New York, from Buenos Ayres, and bark *Eritréo*, Italian, for Pensacola, Fla.

Respectfully, yours,

R. CLEARY, M. D.,
Sanitary Inspector, U. S. M. H. S.
